FIBER CHAIR - SLED BASE FURNITURE / LIGHTING / ACCESSORIES

Iskos-Berlin on the design "One of the most difficult and noble disciplines is to design without eccentricity. To create simple, well-functioning, almost ordinary objects that nevertheless have strong identities. We designed FIBER CHAIR to do just that with a clear sculptural language that refuses to compromise on comfort. It's a chair stripped of all unnecessary layers leaving the chair with a seat, back and armrests that is integrated in one harmonious shell, perfect for nesting yourself into. The iconic form marries soft, embracing curves with an environmentally friendly wood fiber composite, giving FIBER CHAIR a distinctive tactile texture while also keeping it 100% recyclable."

PROCESS	The wood and plastic composition is heated and poured into a mold that presses the chair's shell. The steel sled base is CNC-bent and powder coated.
DESIGNED BY / YEAR OF DESIGN	Iskos-Berlin / 2014
TYPE	Chair
DESCRIPTION	Fiber chair is an all-round easily understandable chair, made of a new innovative shell material of recyclable plastic and wood fibers. With an eye for detail, every line and every curve has been relentlessly altered to balance maximum comfort with minimum space. With a vast palate of shell colors, premium upholstery and leather options, and four different bases, there is a FIBER CHAIR for any dining room, desk, conference hall, auditorium, or office. As the chair is made from natural materials, small variations in color and structure can occur.
ENVIRONMENT	Indoor
DIMENSIONS (CM)	Total height: 76,5 cm / Total width: 51 cm / Total depth: 58 cm Armrest height: 68 cm / Armrest depth: 27 cm Seat height: 46 cm / Seat depth: 40 cm / Seat width: 42 cm
MATERIAL	Shell consists of a wood and plastic composition with 25% wood fibers, 70% PP (polypropylene) and 5% coloured PP. Sled base is made from powder coated steel.
